Whatever the nature of the tax, it should be included in the price submitted.

It is emphasized that mandatory registration for VAT is a legislative requirement once enterprises exceed R1 million in sales within a 12-month period. Other enterprises may elect voluntary registration for VAT even if they do not meet the mandatory threshold for registration.

10. Evaluation on Functionality

- Respondents that did not achieve the minimum qualification score for functionality shall be eliminated from further evaluation.

10.2 Accordingly, where an invitation to submit a tender indicates that the tender will be evaluated on functionality, all acceptable bids submitted shall be firstly evaluated on functionality and, all acceptable bids that achieve the minimum score for functionality, as indicated in the tender invitation, shall be further evaluated in terms of the points system referred to above.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Form “E” must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Chain Management Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This Form “E” serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (Form “E”) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

SPECIFICATION:

**SPECIFICATION AS APPROVED BY THE BID SPECIFICATION COMMITTEE IN TERMS OF
REGULATION 27 OF THE SUPPLY CHAIN MANAGEMENT REGULATIONS:**

1. PURPOSE OF THE CONTRACT

The City of Ekurhuleni invites bids from capable and experienced companies, for the management and rendering of comprehensive refuse removal services including recycling, in specified informal settlements from date of award until 30 June 2029.

2. BACKGROUND

The Waste Management Business Unit took a decision to outsource waste management activities in several communities under its jurisdiction using local labour or a community-based contracting model where residents are involved in the cleaning of the areas where they stay whilst at the same time being developed and economically empowered.

The community-based approach to render services aligns with the strategic objectives set by the Municipality, as expressed in the Integrated Development Plan (IDP) for the period 2006 to 2021, which indicates, “Economic development plays a crucial role in creating a prosperous, equitable, stable and democratic society. The overall national vision of economic development is one of decent work and living standards for all in the context of qualitative improved equality in ownership, skills and access to opportunities” (IDP 2006:44)

All informal settlements within the city are serviced through uniform methods irrespective of their density, location and accessibility. The Waste Management Business Unit has already identified specific strategic areas for safe storage of waste within these informal areas. The Waste Management Business Unit has already utilized nine established Cooperatives and SMMEs to render Refuse Removal Services in the specified areas. The current services are rendered daily, and some activities or line items are provided on an as and when required basis through the appointed bidders.
