NEWCASTLE MUNICIPALITY

PART B

TERMS OF REFERENCE FOR THE TURNKEY PANEL OF IMPEMENTING AGENTS FOR HOUSING PROJECTS FOR A PERIOD OF 36 MONTHS (3 YEARS)

11. TERMS OF REFERENCE FOR THE APPOINTMENT OF IMPLEMENTATION AGENTS TO UNDERTAKE TECHNICAL STUDIES AND CAPITAL PROJECT IMPLEMENTATION OF HOUSING RELATED PROJECTS WITHIN THE NEWCASTLE MUNICIPAL AREA OF JURISDICTION IN ACCORDANCE WITH RELEVANT CONTRACT/S

21.1 BACKGROUND

Newcastle Local Municipality seeks to enlist the services of experienced and competent Implementation Agents (IA) to undertake implementation of various housing related projects within the Newcastle Municipal area of jurisdiction.

The Municipality has been gazetted as a level II Housing accredited Municipality and annually receives the budget from National/ Provincial Department of Human Settlements for implementation of approved capital projects or technical evaluation of planned housing projects. In each instance the Municipality is obligated to ensure competitiveness by putting these projects on the open market. Due to the protracted nature of the supply chain management process associated with enlisting the services of the compatible IA's, it is ideal to have a pool of IA's with whom the Municipality will rotate the housing related works to be undertaken. This will set in motion a process of delivering the much needed housing needs more rapidly to the qualifying beneficiaries.

The proposed pool of IA's is part of the enhanced approach to facilitate agility in statutory planning process and give effect to the capital programme whilst inflation cost is still manageable. The municipality is in the process of completing its Housing Needs Register 'HNR' for the entire municipal area, therefore accede to the perspective that which affirms that the current data base may be slightly outdated.

21.2 PURPOSE OF THIS DOCUMENT (TOR)

The intent of this exercise is twofold:

- a) deals with projects which still require the planning phase, referred to as Stage One within the Housing hierarchy.
- b) deals with capital projects which may be shovel - ready thereby having passed all the statutory processes associated with Stage One application.

21.2.1 Planned Projects (Green or Brown Fields)

For the purposes of this document 'Planned projects' refers to either green (vacant land) or brown (existing settlement) fields projects. This is regarded as Stage One of the housing application; it requires that a suite of plans and the following statutory requirements be in place:

- a) Spatial Planning and Land Use Management Act (SPLUMA) approvals,
- b) Engineering Services Assessment, Design Report and Engineering Drawing
- c) Water Use Licence Approval (WULA),
- d) Environmental Authorisation,
- e) Market feasibility,
- f) Heritage Impact Assessment,

- g) Traffic Impact Assessment,
- h) Wetland delineation Study,
- i) Geotechnical Assessment.

21.2.2 Capital Projects with SPLUMA approvals

These are the projects that have surpassed Stage One by obtaining all the necessary approvals listed in 2.1 above. These projects are regarded as shovel-ready since stages Two to Four are undertaken after obtaining all the planning approvals associated with Stage One. These stage are as follows:

- a) Stage Two (construction of Infrastructure services);
- b) Stage Three (construction of the housing units) and
- c) Stage Four (Opening of a township register).

Depending on the type of the project, and whether it is located in a rural or urban area, Stage Two may or not apply to the specific project. In each of these instances, determination with relevant stakeholders would be made earlier on which project type suite the geo/spatial circumstances of that area.

21.3 STUDY AREA

The Integrated Urban Development Framework is government's policy tool that guides future growth and management of urban areas. It is concerned with spatial transformation; thus it presents the national sentiments on how various areas are classified in terms of their economic performance, demographic structure and social trends.

Newcastle has been listed as a Secondary City which is characterised mainly by strong urban resilience and an inspiring informal sector that can be nurtured into fully grown enterprises.

Furthermore, the Newcastle Municipality has adopted the Vision 2035 Growth and development Strategy that seeks to secure and further pioneer Newcastle as an economic hub for the Northern KwaZulu Natal region.

21.4 PROPOSED APPROACH

The Implementation Agents will be responsible for the undertaking of various planning studies, engineering designs, building plans approval and implement based on the applicable contract management principles for all identified housing related projects. As stated above that the Municipality is to evaluate the type of approach which will apply in each instance, whether it is construction of services and/or housing top structure or it's a process which require a suite of plans and design prior to implementation. Therefore, the following is aimed at providing the guide about the process which will be all encompassing and aims to include the following:
