

2.3 DEFINITIONS

2.3.1 Classification

Controlled Disclosure: Controlled Disclosure to external parties (either enforced by law, or discretionary).

2.4 ABBREVIATIONS

Abbreviation	Description
A&A	Auxiliary & Ancillary
SAQCC-Fire	South African Qualifications Certification Committee - Fire
TET	Technical Evaluation Team

2.5 ROLES AND RESPONSIBILITIES

Engineering Design Work Lead (EDWL): The EDWL is responsible to manage execution and adherence to the tender technical evaluation procedure.

Technical Evaluation Team (TET) Member: The delegated engineers / technical specialists who are responsible to review and evaluate technical aspects of the tender documentation as per the Tender Technical Evaluation Strategy.

Engineering Manager: All Engineering Managers throughout Eskom shall ensure that all staff, in their respective areas understand and adhere to this procedure.

2.6 PROCESS FOR MONITORING

Not Applicable.

2.7 RELATED/SUPPORTING DOCUMENTS

Refer to Section 2.2.

3. TENDER TECHNICAL EVALUATION STRATEGY

3.1 TECHNICAL EVALUATION THRESHOLD

Mandatory Technical Evaluation Criteria (gatekeepers) are 'must meet' criteria. These criteria shall not be weighted, or point scored but shall be assessed on a Yes/No basis as to whether the criteria are met. An assessment of 'No' against any criterion shall technically disqualify the tenderer and shall not be further evaluated against Qualitative Criteria.

Qualitative Technical Evaluation Criteria are weighted evaluation criteria used to identify the highest technically ranked tenderer after determining that all the Mandatory Evaluation Criteria have been met.

The Qualitative Evaluation Criteria are weighted to reflect the relevant importance of each criterion. The minimum weighted final score (threshold) required for a tender to be considered from a technical perspective is 80%. The reason for the threshold of 80% is to ensure a full response on the qualitative criteria. Eskom reserve the right to lower the threshold to 70%.

CONTROLLED DISCLOSURE

When downloaded from the EDMS, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

3.3 MANDATORY TECHNICAL EVALUATION CRITERIA

Table 2: Mandatory Technical Evaluation Criteria

	Mandatory Technical Criteria Description	Tender Returnable	Motivation for use of Criteria
1.	Tenderer submits proof of South African Qualifications Certification Committee - Fire (SAQCC-Fire) Registration relevant to Manual Fire Fighting Equipment (Hand-held fire equipment) and an Organogram with names and registration detail of the personnel involved in the works. In case the Tenderer intends to subcontract, an Organogram with names and registration detail of the subcontractor personnel is provided.	- The Tenderer submits proof of the following SAQCC-Fire Registration for the resources who are involved with the services, that must include the following resources with competencies: 1) Service Technician (SANS 1475) - The Tenderer submits an organogram with the names and registration detail of the contractor and subcontractor personnel involved with the services. - Tenderer submits CV's of the personnel involved in the services and the CV must include the relevant SAQCC-Fire Registration number or alternatively Registration Certificates to enable the Employer to verify the registration detail on the Public SAQCC-Fire Website.	Legal requirement.

3.4 QUALITATIVE TECHNICAL EVALUATION CRITERIA

Table 3: Qualitative Technical Evaluation Criteria

	Qualitative Technical Criteria Description	Tender Returnable	Criteria Weighting (%)	Score	Criteria Sub Weighting (%)
1.	TENDER TRACK RECORD AND EXECUTION CAPABILITY		70%		
1.1	Tenderer submits evidence of completed works that are equivalent to the works required in the Contract. Tenderer produces a track record of completed works consisting as a minimum of maintenance, installation, testing and commissioning of Manual, Active and Passive Fire Protection Systems.	Tenderer submit project references. As a minimum the reference list must contain: - Contact Person(s) - Contact Number(s) - Project Description - Contract Period - Contract Value	5 Maintenance Projects 3-4 Maintenance Projects 1-2 Maintenance Projects 0 Maintenance Projects	5 4 2 0	50
1.2	Years of experience in the Fire System Industry (which could include design and/or installation and/or maintenance).	Tenderer submits the company established date and detail of experience.	5 Years 3-4 Years 1-2 Years 0 Years	5 4 2 0	50
2.	OTHER REQUIREMENTS		30%		
2.1	The execution plan to include the following: Detailed program showing the maintenance activity with target dates for execution, resources allocated and duration of each activity.	Tenderer supplies a detailed program for the entire contract period containing, but is not limited to the list of activities, start	Detailed Program (activities, start dates, duration and resource disciplines) for all sites supplied.	5	50
