PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

- 1.1. The following preference point systems are applicable to invitations to tender:
- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
 - the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).
- 1.2. **To be completed by the organ of state**
The applicable preference point system for this tender is the **80/20** preference point system.
- 1.3. Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:
- (a) Price: and
 - (b) Specific Goals
- 1.4. **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

- 1.5. Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.
- 1.6. The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) **tender** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) **price** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) **rand value** means the total estimated value of a contract in Rand, calculated at the time of bid

invitation, and includes all applicable taxes;

- (d) **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) **“The Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1. THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\ P_s = 80 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right) & \mathbf{or} & P_s = 90 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right) \end{array}$$

Where:

P_s = Points scored for price of tender under consideration
 P_t = Price of tender under consideration
 P_{min} = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\ P_s = 80 \left(1 - \frac{P_t - P_{max}}{P_{max}} \right) & \mathbf{or} & P_s = 90 \left(1 - \frac{P_t - P_{max}}{P_{max}} \right) \end{array}$$

Where:

P_s = Points scored for price of tender under consideration
 P_t = Price of tender under consideration
 P_{max} = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/documentation stated in the conditions of this tender;
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of –
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

1. BACKGROUND

Iziko Museums of South Africa (Iziko) is a schedule 3A public entity and non-profit organisation, partly subsidised by the National Department of Sport, Arts & Culture (DSAC), bringing together 11 national museums and a Social History Centre situated in the Western Cape under a single governance and leadership structure. Iziko was established in terms of the Cultural Institutions Act, 1998 (Act No. 119 of 1998) and is required to comply with the Public Finance Management Act (PFMA), 1999 (Act No. 1 of 1999, as amended) and its concomitant Regulations. Iziko Museums deliver high-quality exhibitions across several sites.

Platforms will be developed for Iziko's upcoming *Amanzi eAfrica* exhibition. Water is the lifeblood of ecosystems and communities in South Africa and the continent, from towering Table Mountain to its two oceans. The exhibition, *Amanzi eAfrica* (Water for Africa), will explore the vital role water plays in sustaining life, culture, and ecological systems in South Africa. By tracing water from its source in catchment areas, through fresh water riverine systems, lakes to estuaries, this exhibition will educate and inspire visitors to appreciate water as a precious, life-giving resource.

2. SCOPE OF SERVICES

Suitably qualified service providers* are invited to submit quotations for the fabrication, supply, delivery and installation of custom exhibition platforms in accordance with the attached drawings, specifications and plans contained in **Annexure A**, and within the required project deadlines.

The appointed supplier shall manufacture, supply, deliver and install freestanding curved display platforms, including all associated components, finishes and installation works, for use within a public museum environment. This shall include, but is not be limited to, structural framing, curved edge construction, trap doors, internal shelves, integrated seating, graphic finishes, transportation and complete installation.

The successful supplier shall take final site measurements upon appointment and verify all dimensions prior to fabrication. For planning and pricing purposes, a 3D model of the proposed platform layouts is available at the link below. The model is provided for reference only and shall not replace the attached drawings, specifications or the requirement to verify all dimensions on site.

<https://poly.cam/capture/0143405E-4A69-473A-B755-F7618EE91A72>

The completed platforms are intended as temporary exhibition infrastructure; however, they shall be fabricated to exhibition-quality standards suitable for long-term use in a high-traffic public environment. The platforms must provide a safe, durable and stable structure capable of supporting and displaying irreplaceable museum objects while maintaining the highest standards of workmanship, finish and public safety.

Refer to **Annexure A** for the platform drawings, specifications, finishes and installation requirements.

*Bidders shall demonstrate proven experience in the fabrication and installation of high-quality custom platforms, display structures, shopfitting, bespoke joinery or comparable carpentry projects within high-traffic public environments. Evidence of at least **five** similar carpentry projects completed within the past **five years** shall be provided. Refer to **Section 9: Evaluation Criteria** for further details.

3. SITE VISIT AND VERIFICATION OF DIMENSIONS

- A compulsory site visit shall be undertaken by the supplier prior to pricing and fabrication.
- The supplier shall:
 - Attend the compulsory site inspection to familiarise themselves with the installation environment, site access, existing building conditions and any constraints that may affect fabrication or installation.
 - The successful supplier must take all necessary site measurements and verify all dimensions before commencing fabrication. Dimensions shown on the supplied drawings are provided for reference only and shall not be relied upon as the sole source of measurement.
 - Satisfy themselves that their proposed construction can be successfully fabricated, transported and installed within the existing building.
 - Where required, produce their own templates of the installation area, including templates around existing columns, walls, floor irregularities or other building elements, to ensure an accurate fit.
 - 1:1 paper templates of the platform profiles (as seen in the renders) have been prepared by Iziko for their layout and planning purposes. The successful supplier may arrange to copy these templates on site; however, the templates shall remain the property of Iziko and may not be removed from the premises under any circumstances.
 - The supplier remains responsible for taking and verifying all final site measurements prior to fabrication.
 - Verify the position of all existing services, floor outlets and any other building features that may affect the fabrication or installation of the platform.
 - Immediately notify the Client of any discrepancies between the drawings and the actual site conditions before fabrication begins.

4. CONSTRUCTION SPECIFICATIONS

To be read alongside Annexure A, the platforms shall comprise:

- Structural framing designed and fabricated by the supplier to provide a rigid, stable and durable construction.
- 16 mm plywood top surface.
- Curved edges formed from bending plywood or another flexible sheet material suitable for achieving the required radii.
- Materials used shall be moisture-resistant and suitable for long-term museum installations. **MDF and chipboard or similar products shall not be used for any part of the construction.**
- Supplier to provide all internal framing, bracing and supports necessary to maintain the required profile and support.

4.1 Curved Edge Construction

The method of constructing and fixing the curved edge shall be determined by the supplier.

The proposed system shall:

- maintain the profile and radii indicated on the drawings AMZI 002;
- remain rigid and stable throughout its service life;
- resist warping, movement and deformation;
- provide a clean, continuous finished appearance.

Reference photographs supplied with the drawing are indicative only and illustrate possible construction methods. They do not prescribe the construction or fixing system.

All curved edge faces indicated on the drawings shall be finished with:

- full-colour digitally printed self-adhesive vinyl topped by a heavy-duty non-slip floor-grade protective laminate suitable for high public traffic and mopping.
- Graphics shall be wrinkle-free, accurately aligned and free from bubbles or lifting.

4.2 Fit Around Existing Building Elements

The platform shall be accurately fabricated to fit snugly around existing columns and other fixed building elements as shown on the drawings and confirmed during the compulsory site visit.

No visible gaps shall remain between the platform and existing building elements unless specifically indicated. Dog-bone connectors or toggle latches/draw latches are permitted, providing they don't protrude from the surface by more than, 200mm.

Where required for transportation and installation, the platform may be fabricated in sections to pass through existing doorways. All sectional joints shall align flush;

- maintain the finished profile;
- produce a continuous seamless appearance once installed.

4.3 Trap Door for plug access

Provide a flush-fitting access hatch (trap door) in the location indicated on the drawings AMZI 002.

- The trap door shall be manufactured from the same 16 mm plywood as the platform.
- The access hatch shall sit flush with the surrounding platform, maintaining a continuous surface with minimal visible joints.
- The opening and supporting frame shall be reinforced to prevent movement, flexing or sagging when accessing door.
- The supplier shall provide a concealed lifting method (e.g. finger pull, recessed pull etc.) that allows easy access while remaining unobtrusive.
- The hatch shall be removable and re-installable without damaging the surrounding finishes.
- Provide an internal fixed shelf beneath the access hatch, positioned ± 300 mm below the underside of the platform top.
- The shelf shall be capable of supporting AV equipment and associated cabling without deflection.

4.4 Seating

Provide an integrated upholstered seating element as indicated on the drawings. The seating shall comprise:

- High-density foam shaped to match the platform profile.
- Upholstered cover in fabric fitted with a concealed zip for easy removal, cleaning and replacement.
- Upholstered in a durable, sand-coloured commercial upholstery fabric that is stain-resistant, hard-wearing and suitable for continuous use in a high-traffic public environment.
- The finished upholstered surface shall sit flush with the adjacent platform surface.
- Approximate dimensions shall be 1,000 mm wide $\times$ 500 mm length, depth to be determined by foam availability, but must be comfortable. Final size and location shall *be confirmed and signed off by Iziko project manager upon appointment.*
- 3 additional removable replacement covers shall be provided, to ensure continuity when covers are at the laundromat.
- The seating shall have additional support brackets suitable for continuous use in a high-traffic public environment.

4.5 Recessed Sand Pit Interactive

Provide a recessed sand pit interactive integrated into the platform as indicated on the drawings.

The interactive shall comprise:

- Approximate internal dimensions of 1,000 mm (L) $\times$ 300 mm (W) $\times$ 150 mm (D).
- Supply kinetic sand in natural sand colour.
- Reinforce the surrounding platform structure and edges to withstand repeated public use and minimise sand spillage.
- All internal surfaces shall be smooth, durable and easy to clean.

- The completed interactive shall be suitable for an educational activity in which children create and identify animal tracks found along the river's edge using stamps and kinetic sand.
- Include an additional 30 Hours of Carpentry work for interactive 'stamps'.

4.6 Installation

All works shall be undertaken during Iziko's regulated working hours (08:00–17:00, Monday to Friday). Any work outside these hours shall require prior written approval from Iziko. Installation at Iziko South African Museum 25 Queen Victoria Street.

The supplier shall:

- transport all components to site;
- implement appropriate **dust protection and dust control measures** throughout the installation process to protect the museum environment, collections and adjacent exhibition spaces;
- comply with all applicable Occupational Health and Safety (OHS) legislation and adhere to all Iziko Museums of South Africa health, safety, security and site regulations while working on site; the bidder will be requested to provide documentation if successful.
- assemble and install the platforms;
- provide all fixings and hardware;
- ensure the completed installation is level, secure and stable;
- protect existing museum finishes and flooring during installation;
- remove all packaging and waste on completion.

5. PROJECT DEADLINES

Roll-out delivery is required as outlined below; allow for minor changes on discussion after appointment, however final installation completion date remains fixed. All cost including overtime to account for the below schedule.

- The expected job start date 5 October 2026
- The onsite installation is scheduled to start 14 October 2026
- The completed installation is required no later than 5 November 2026 with a minimum of 80% of the platforms installed by 29 October 2026.
- The additional interactive work for interactive 'stamps' along with the supply and application of printed vinyl with floor-grade laminate can take place in November but MUST be completed by 1 December 2026.

6. OUTPUT/DELIVERABLES

The successful supplier shall provide:

- | | |
|--|--|
| • Shop drawings (where required) | • Digital printing and application of vinyl graphics with floor-grade laminate |
| • Fabrication of all platform components | • Transportation to site |
| • Structural framing | • Installation and assembly |

Please note that if the supporting documentation is not provided then the submission will be classified as non-responsive.

1. Disqualification

Please note that if a bid document is not filled in correctly or completely, or complied with the specification, or is delivered/sent after the bid closing date and time, or the supplier is not registered on the CSD or supplier has a non-compliant tax status, then unfortunately that bidder maybe disqualified. Please return this document with the supporting documents.

2. Bid Document Submission

Emailed tender documents will be accepted. However, the onus is on the tenderer to ensure that complete email documents have been received by the IZIKO by the due date and time.

Please note that any alterations to the tender document other than filling in the tenderer's details and tender price will automatically disqualify the tenderer.
