The Works Authorisation Form (WAF) shall be presented by the Engineer to the Employer, who shall signify his approval before the order is signed by the Engineer and issued to the Contractor, who shall acknowledge his acceptance by signing the order. The Contractor shall not accept a Works Authorisation that is not approved and signed by the Employer.

If the Contractor considers that an instruction constitutes a Variation, the Contractor shall immediately, and before commencing any work related to an instruction, give a notice to the Engineer with reasons for deeming such instruction a Variation and furnish the Employer with a copy thereof. If the Engineer does not respond within seven days confirming, revoking or varying the instruction, the Engineer shall be deemed to have revoked the instruction.”

13.8 ADJUSTMENTS FOR CHANGES IN COSTS

Delete from the third sentence of the third paragraph until the end of the sub-clause and substitute:

“The formula shall be as follows:

$$Pt = (1 - x) [(a \text{ Lt/Lo}) + (b \text{ Et/Eo}) + (c \text{ Mt/Mo}) + (d \text{ Ft/Fo}) - 1]$$

where:

“Pt” is the adjustment multiplier, rounded to the fourth decimal place, to be applied to the estimated contract value of the work carried out in period “t”, this period being a month unless otherwise stated in the Appendix to Tender;

“x” is a fixed coefficient, stated in the relevant table of adjustment data, representing the non-adjustable portion in contractual payments;

“a”, “b”, “c” and “d” are coefficients representing the estimated proportion of each cost element related to the execution of the Works, as stated in the relevant table of adjustment data; such tabulated cost elements may be indicative of resources such as labour (L), equipment (E), materials (M) and fuel (F);

“Lt”, “Et”, “Mt” and “Ft” are the current cost indices for period “t”, each of which is applicable to the relevant tabulated cost element on the last day of the period (to which the particular Payment Certificate relates); and

“Lo”, “Eo”, “Mo” and “Fo” are the base cost indices, each of which is applicable to the relevant tabulated cost element on the Base Date.

The base cost indices stated in the table of adjustment data shall be used. If their source is in doubt, it shall be determined by the Engineer.

Until such time as each current cost index is available, the Engineer shall determine a provisional index for the issue of Interim Payment Certificates. When a current cost index is available, the adjustment shall be recalculated accordingly.

If more than one month intervenes between the month applicable to any Interim Payment Certificate and the month applicable to the immediately succeeding Interim Payment Certificate, then the cost indices “Lt”, “Et”, “Mt” and “Ft” applicable to the succeeding Interim Payment Certificate shall each be taken as the arithmetic mean, rounded off to one decimal place, of the relevant indices applicable to the month of measurement and to such intervening months.

The value of the relevant Interim Payment Certificate to which the adjustment is to be applied shall be determined by the formula:

$$Ac = T - S - D - G - Ap$$

where:

“Ac” is the value of work carried out in period “t” to which the adjustment is to be applied;

“T” is the summation of the total value of the preliminary and general items, and the work done, as certified in the Interim Payment Certificate under consideration without any deduction whatsoever and before any adjustment made in terms of this Sub-Clause.

“S” is the aggregate of (i), (ii), (iii) and (iv), referred to below, and included in “T” where special arrangements for price adjustments in respect of these amounts were made and recorded at the time the work was ordered:

- (i) the amounts actually expended and substituted for any prime cost sums,
- (ii) the value of any work done by Nominated Subcontractors,
- (iii) the value of any work done against Provisional Sums, and
- (iv) the value of any extra or additional work done under a Variation.

“D” is the value of work included in “T” and done at new rates fixed in terms of Sub-Clause 12.3, where those rates are not based on labour, Contractor’s Equipment or Materials costs in force at the time of tendering. Generally new rates may be based on current costs and de-escalated to the Base Date of the indices, in which case work done at these rates shall not be included in the value of “D”.

“G” is the amount included in “T” for Materials classified and dealt with as Special Materials.

“Ap” is the summation of all “Ac” amounts determined for all Payment Certificates preceding in time the Payment Certificate under consideration.

Save only for Variations ordered to be carried out after the Time for Completion has expired, the Contract Price adjustment factor to be applied to certificates relating to work done or materials supplied after the expiry of the Time for Completion shall be calculated by inserting in the formula referred to in this Sub-Clause the cost indices Lt, Et, Mt and Ft applicable either (i) 49 days prior to the date of expiry of the Time for Completion, or (ii) for the current month: whichever is more favourable to the Employer.

The price of each Special Material specified in the Appendix to Tender shall be increased or decreased by the net amount of any change in price incurred after the Base Date, provided that any claim for adjustment in terms hereof shall be substantiated by the submission of acceptable invoices and any other supporting documents which the Engineer considers necessary for that purpose. However, except for Variations ordered in terms of Clause 13 [*Variations and Adjustments*] all adjustments after expiry of the Time for Completion shall be based on the price of each Special Material either (i) 49 days prior to the date of expiry of the Time for Completion, or (ii) for the current month: whichever is more favourable to the Employer.

For the purpose of this Sub-Clause, “the net amount of any change in price” in respect of a particular Material referred to as a Special Material shall be calculated by multiplying the difference between the

rate or price entered in the Contract by the Contractor for that Special Material and the equivalent rate or price actually paid by the Contractor for the Special Material by the quantity of the Special Material in question.”

Add the following new clause (e):

The said company or bank shall be registered or licensed to do business in the Republic of South Africa and shall have an office and banking facility in the Republic of South Africa and shall be subject to approval by the Employer.

The aggregate liability under the guarantee shall be the maximum amount of retention monies to be retained by the Employer, which amount shall be as stated in the Appendix to Tender.

Other conditions, if any, additional to the above standard conditions shall be as stated in the Appendix to Tender.

The guarantee shall expire on the date on which the last of the retention monies (which, but for the guarantee, would have been retained by the Employer) becomes payable to the Contractor.

The guarantee shall be returned to the guarantor upon final payment of the aggregate liability or on the date of expiry, whichever is the earlier.”

No measurement and payment dispute by the contractor shall delay an Interim Payment Certificate. If the Contractor fails to make payment to subcontractors of any sum properly due and payable Clause 14.9 Delayed Payment under the Subcontract in the FIDIC Conditions of Subcontract will apply.”

After receiving a Notice to Correct the Contractor shall immediately respond by giving a Notice to the Engineer describing the measures the Contractor will take to remedy the failure and stating the date on which such measures will be commenced in order with the time specified in the Notice to correct.

The time specified in the Notice to Correct shall not imply any extension of Time for Completion.”

The Contractor shall indemnify the Employer against any liability for physical damage incurred to, or loss of, property within the Site identified in the Contract as not belonging to the Employer regardless of whether or not such damage or loss is caused by the Contractor’s equipment.

The Contractor shall notify the Engineer and the Employer in writing within 48 (forty-eight) hours of becoming aware of any incident, occurrence, act or omission which has given rise to, or may reasonably be expected to give rise to, a claim by a third party arising out of or in connection with the Contractor’s performance or non-performance of the Contract, including the Works, routine maintenance, traffic accommodation, emergency response, inspections, patrols and make-safe obligations.

Where any such matter may fall within insurance cover required under Clause 18 [Insurance], the Contractor shall notify its insurer and/or broker within the period required by the applicable policy and, in any event, within 48 (forty-eight) hours of becoming aware of the matter. Within 2 (two) working days thereafter, the Contractor shall provide the Engineer and the Employer with proof of notification and the insurer’s claim or reference number. The Contractor shall thereafter provide the Engineer and the Employer with all information, documentation, reports and access reasonably required to investigate, assess, manage and process the claim, and shall keep them updated on the status of the claim and the insurer’s position until final resolution.

The Contractor shall authorise its insurer and/or broker to communicate directly with the Engineer and the Employer regarding notification of the claim, applicable cover, information required, claim status and settlement discussions. Such authority shall not create any right against the insurer beyond the insurance policy or applicable law. The Contractor shall not admit liability, negotiate, compromise or settle any third-party claim referred to in this Sub-Clause without the prior written consent of the Employer and, where required by the policy, the insurer. Any admission, negotiation or settlement made in breach of this paragraph shall not bind the Employer and shall be at the Contractor’s own risk and cost.

Where the Engineer or Employer forwards a third-party claim to the Contractor, the Contractor shall promptly notify the insurer if the matter may be covered, investigate the claim in good faith and provide a reasoned written response to the Engineer and the Employer within 14 (fourteen) days. The response shall state the material facts, the contractual and factual grounds for the Contractor’s position, the supporting evidence relied upon, and the insurer’s coverage and/or liability position, if available. The Contractor shall not reject, repudiate or decline a claim solely on its own assessment without first complying with the notification and investigation obligations in this Sub-Clause.

Any rejection, repudiation, exclusion, excess, deductible, exhaustion of limit or other refusal or limitation of indemnity by the Contractor’s insurer shall not relieve the Contractor of any indemnity, liability or obligation assumed under this Contract. Where a third-party claim is pursued against the Employer and the matter may fall within the Contractor’s indemnity obligations under this Sub-Clause 17.1 the contractor exempts the Employer liability of 3rd party claims that arise or are submitted during the defects notification period/routine road maintenance contract. Should any party institute legal action against the Employer, the Employer will recover both the quantum and legal costs or legal costs from the contractor, the Contractor shall, upon written request, provide or procure the defence of the claim and shall cooperate fully with the Employer. The Contractor must be joined as a party in any proceedings wherein a third-party claim is pursued against the Employer. The Employer may participate in the defence and appoint its own legal or technical advisers where reasonably necessary to protect its interests.

If the Contractor or its insurer fails or refuses to provide an effective defence within 5 (five) working days after written request, or where urgent action is reasonably required to protect the Employer's position, the Employer may investigate, defend, negotiate or settle the claim. Where the matter giving rise to the claim falls within the Contractor's indemnity obligations under this Sub-Clause 17.1, the Contractor shall reimburse the Employer, in full, for:

- a) the amount of any judgment, award, reasonable settlement or binding determination against the Employer; and
- b) all reasonable legal, expert, investigation, claims-handling and other costs and disbursements actually incurred by the Employer in investigating, defending, managing and resolving the claim, to the extent not recovered from the insurer or another party,

as an indemnity under this Sub-Clause 17.1 and irrespective of the limitation of liability in Sub-Clause 17.6.

The Employer shall not be required to obtain the Contractor's consent to a settlement where the Contractor and its insurer have been given a reasonable opportunity to participate and the Contractor unreasonably withholds or delays consent, fails to respond, or fails or refuses to provide an effective defence. Any settlement for which reimbursement is claimed from the Contractor shall be reasonable in the circumstances.

The obligations in this Sub-Clause relating to notification, cooperation, defence, indemnity and reimbursement shall survive completion or termination of the Contract in respect of any incident, act or omission occurring during the period of the Contract. Any amount finally due to the Employer under this Sub-Clause may be recovered as a debt or set off against amounts otherwise due to the Contractor, subject to the Employer complying with the applicable notice and determination provisions of the Contract. The Employer shall not recover twice for the same loss."

17.4 CONSEQUENCES OF EMPLOYER'S RISKS

In the first sentence of the second paragraph, insert "to the Works, Good or Contractor's Documents" after the word "damage".

17.6 LIMITATION OF LIABILITY

In the third line of the first paragraph the remainder of the sentence after the word under replace "Sub-Clause 17.1 [Indemnities] and Sub-Clause 17.4 [Consequences of Employer's Risks]" with:

"as specifically provided for in Sub-Clause 8.7 [Delay Damages and Other Non-compliance Charges]; Sub-Clause 11.2 [Cost of Remedying Defects]; Sub-Clause 15.4 [Payment after Termination]; Sub-Clause 16.4 [Payment on Termination]; Sub-Clause 17.1 [Indemnities]; Sub-Clause 17.4 [Consequences of Employer's Risks] and Sub-Clause 17.5 [Intellectual and Industrial Property Rights]."

18.1 GENERAL REQUIREMENTS FOR INSURANCES

Add the following under Sub-Clause 18.1

The Contract Data currently provides a minimum third-party liability insurance amount of R 20 000 000. Before issue, confirm the adequacy of this limit for the specific contract and state expressly whether the limit applies per occurrence and whether any annual aggregate applies.

"The Contractor shall maintain the required third-party liability insurance continuously for the period required by the Contract. Before the Commencement Date and on each renewal, the Contractor shall provide the Employer and Engineer with an insurer- or broker-confirmed policy schedule or certificate and the relevant endorsements, showing at least the insurer, policy number, period of insurance, limit of indemnity, excess or deductible, annual aggregate basis (if any), insured parties and claims contact details. A certificate shall not replace the policy or endorsements where the Employer reasonably requires them for verification.

Unless otherwise approved in writing by the Employer, the policy shall, to the extent applicable to the required cover, provide that the Employer is included as a co-insured, additional insured or separately indemnified party for liabilities arising from the Contractor's performance or non-performance of the Contract; include cross-liability and severability of interests; provide contractual liability cover sufficient

to respond to the Contractor's insurable obligations under Sub-Clause 17.1; and provide that any policy excess or deductible is for the Contractor's account. The Contractor shall also obtain non-vitiation protection, waiver of subrogation against the Employer and advance notice of cancellation or material reduction in cover where such provisions are commercially available on reasonable terms, or shall obtain the Employer's prior written approval to any departure.

If the insurance is written on a claims-made basis, the Contractor shall maintain the applicable retroactive date and continuous cover, or equivalent run-off or extended reporting cover, for not less than 36 (thirty-six) months after the Performance Certificate, unless a longer period is stated in the Contract Data.

The Contractor shall immediately notify the Employer and Engineer of any cancellation, lapse, material reduction, reservation of rights or other circumstance which may materially affect the cover required by the Contract. The Contractor shall authorise the insurer and/or broker to confirm directly to the Employer and Engineer the status of the policy and any claim notified under Sub-Clause 17.1.

The existence of insurance, any excess or deductible, any exclusion or limitation, or any rejection or repudiation of cover by the insurer shall not relieve the Contractor of any obligation or liability under the Contract. Without prejudice to the Employer's rights under Clause 18, any cost reasonably incurred by the Employer in procuring replacement cover because of the Contractor's default shall be recoverable from the Contractor."

18.2 INSURANCE FOR WORKS AND CONTRACTOR'S EQUIPMENT

In the 4th paragraph, delete the wording of sub-paragraph (d) and replace with the following:

- "(d) shall also cover loss or damage to a part of the Works which is attributable to the use or occupation by the Employer of another part of the Works, and loss or damage from the risks listed in sub-paragraphs (g) and (h) of Sub-Clause 17.3 [*Employer's Risks*], and shall include insurance with the South African Special Risks Insurance Association (SASRIA) that cover loss or damage from the risks listed in sub-paragraph (c) of Sub-Clause 17.3 [*Employer's Risks*], and"

19.1 DEFINITION OF FORCE MAJEURE

In the 3rd line of sub-paragraph 19.1(iii) insert "or suppliers," after the word "Subcontractors".

19.4 CONSEQUENCES OF FORCE MAJEURE

Insert the following after the 1st paragraph:

"If, however, the Contractor is prevented from performing any of his obligations under the Contract by Force Majeure events of the kind listed in clause 19.1 sub-paragraph (iii), the Contractor shall not be entitled to any extension of time for any such delay and shall not be entitled to payment of any such Cost, if all the following conditions are not satisfied:

- (1) The Contractor has engaged with the persons responsible for the riot, commotion, disorder, strike or lockout; has met with the persons or leaders; and has recorded the persons or leaders details, their grievances, the organisations involved, all threats made; and has requested the persons or leaders to cease all unlawful conduct; and
- (2) The Contractor has obtained proof of the riot, commotion, disorder, strike or lockout, and of any unlawful conduct; and
- (3) The Contractor has reported all threats and unlawful conduct to the South African Police Service; and
- (4) The Contractor has brought an urgent application to the court that correctly identify the respondents and define the unlawful conduct to be interdicted; and
- (5) The Contractor has exhausted all available legal and other remedies to ensure that the court order is enforced."

19.5 FORCE MAJEURE AFFECTING SUBCONTRACTOR

Amend the title to read "Force Majeure Affecting Subcontractor and Supplier".

In the first line insert "or supplier" after the word "Subcontractor"

20.1 CONTRACTOR'S CLAIMS

In paragraph 5, insert the following after the first sentence:

"If an extension of time is granted the Contractor shall be paid such time-related Preliminary and General allowances as are appropriate having regard to any other compensation which may already have been granted in respect of the circumstances concerned. Payment of costs additional to the above will only be considered if the costs derive from claims that fall within the terms of Clause 13 [Variations and Adjustments] and/or Sub-clause 17.3 [Employer's Risks]."

Replace the 6th paragraph with the following:

"After receiving a claim or any further particulars supporting a previous claim, the Engineer shall present such claim or particulars to the Employer, together with his recommendations, for a ruling, which ruling shall be given to the Contractor within 42 days after receiving a claim or any further particulars, provided that the said period of 42 days may be extended by application from one Party and approval of the other. If the Employer fails to give his ruling within the specified period, or agreed extension thereto, it shall be deemed that the Employer has dismissed the claim."

Delete the 8th paragraph.

20.2 to 20.8

Replace these sub-clauses with the following:

20.2 SETTLEMENT OF DISPUTES

- (a) The Contractor shall have the right to dispute any ruling given or deemed to have been given by the Employer or the Engineer, provided that, unless the Contractor shall, within 42 days after his receipt of a ruling or after a ruling shall have been deemed to have been given, give written notice (hereinafter referred to as a "Dispute Notice") to the Engineer, referring to this Clause, disputing the validity or correctness of the whole or a specified part of the ruling, he shall have no further right to dispute that ruling or the part thereof not disputed in the said Dispute Notice.
- (b) All further references herein to a ruling shall relate to the ruling, or part thereof, specified in the Dispute Notice, as varied or added to by agreement between the Contractor and the Engineer or by the Engineer's decision in terms of sub-paragraph (c) or by the Mediator's opinion to the extent that it has become binding in terms of Sub-clause 20.3(f).
- (c) The Engineer shall
 - i) before giving his decision on the dispute, consult the Employer thereon and give the Contractor a reasonable opportunity to present written or oral submissions thereon, which latter shall be confirmed in writing within 7 days
 - ii) deliver his decision in writing to the Employer and to the Contractor, and
 - iii) give his decision within 56 days of his receipt of the Dispute Notice, or within any further period as may be agreed between the Engineer and the Contractor, failing which, he shall be deemed to have given a decision affirming, without amendment, the ruling concerned.
- (d) Unless either the Employer or the Contractor, shall, within 28 days after his receipt of notice of the decision in terms of sub-paragraph (c)(ii) or after the decision is deemed to have been given in terms of sub-paragraph (c)(iii), have given notice in writing to the Engineer, with a copy to the other Party, disputing the Engineer's decision or a specific part thereof, he shall have no further right to dispute any part of the ruling not specified in his said notice.
- (e) If either Party shall have given written notice in compliance with sub-paragraph (d), the dispute shall be referred to mediation in terms of Sub-Clause 20.3 unless either Party has given written notice to the other Party of its intention to refer the matter in dispute to court, which notice shall be given either:
 - i) within 28 days of receipt of notice of the Engineer's decision, or
 - ii) within 14 days of receipt by the one Party of the other Party's notice of dispute of the Engineer's decision.

If notice of intention to refer the matter in dispute to Court has been served by either party, the matter in dispute shall not be referred to mediation but shall be referred to Court.

- (f) Notwithstanding that the Contractor may, in respect of a ruling, have given a Dispute Notice, the ruling shall be of full force and carried into effect unless and until otherwise agreed by both Parties in terms of Sub-Clause 20.3(f) or as determined in a court judgement.

20.3 MEDIATION

- (a) The mediation referred to in Sub-Clause 20.2(e) shall be conducted by a mediator selected by agreement between the Parties or, failing such agreement within 7 days after a written request by either Party for such agreement, nominated on the application of either Party by the President for the time being of the South African Institution of Civil Engineering.

If, for any reason, the person appointed fails to assume or to continue in the office concerned:

- (i) the provisions of Sub-Clause 20.3 shall apply mutatis mutandis in the appointment of a successor, and
 - (ii) in making his nomination in terms of this sub-clause, the president for the time being of the South African Institution of Civil Engineering shall, at his own discretion, act in consultation with the presidents for the time being of Consulting Engineers South Africa and the South African Federation of Civil Engineering Contractors, and
 - (iii) if the president required to make a nomination in terms of this sub-clause shall have a direct or indirect interest in the subject matter of the dispute, the nomination shall be made by the chief executive officer or the next senior officer of the body concerned who has no such interest.
- (b) Neither Party shall be entitled to be represented at any hearing before, or at, any meeting, or in any discussion, with the mediator except by any of the following:
 - i) the Party himself, if a natural person,
 - ii) a partner in the case of a partnership,
 - iii) an executive director in the case of a company,
 - iv) a member in the case of a close corporation,
 - v) the Engineer,
 - vi) a bona fide employee of the party concerned, and
 - vii) a professional engineer appointed for the purpose by the Party concerned.
- (c) The mediator shall, as he deems fit, follow formal or informal procedure and receive evidence or submissions orally or in writing, sworn or unsworn, at joint meetings with the Parties or separately or from any person whom he considers can assist in the formulation of his opinion, provided that:
 - i) each Party shall be given reasonable opportunities of presenting evidence or submissions and of responding to evidence or submissions of the other Party, and
 - ii) each Party shall be given full details of any evidence or submissions received by the Mediator from the other Party or any other person otherwise than at a meeting where both Parties are present or represented.
- (d) The mediator shall have the power to propose to the Parties compromise settlements of or agreements in disposal of the whole or portion of the dispute.
- (e) The mediator shall, as soon as reasonably practical, give to each of the Parties his written opinion on the dispute, setting out the facts and the provisions of the Contract on which the opinion is based and recording the details of any agreement reached between the Parties during the mediation.
- (f) The mediator's opinion shall become binding on the Parties only to the extent correctly recorded as being agreed by the Parties in the mediator's written opinion or otherwise as recorded as being agreed in writing by both Parties subsequent to the receipt of the mediator's opinion.
- (g) The dispute on any matter still unresolved after the application of the provisions of sub-paragraph (f) shall be resolved by court proceedings.

- (h) Save for reference to any portion of the mediator's opinion which has become binding in terms of sub-paragraph (f), no reference shall be made by or on behalf of either Party, in any proceedings subsequent to mediation, to the mediator's opinion, or to the fact that any particular evidence was given, or to any submission, statement or admission made in the course of the mediation.

Irrespective of the nature of the mediator's opinion:

- (i) each Party shall bear his own costs arising from the mediation, and
- (ii) the Parties shall in equal shares pay the mediator the amount of his expenses and the amount of his fee based on a scale of fees as agreed between the mediator and the Parties before the commencement of the mediation.

20.4 REFERENCE TO COURT

If a dispute is still unresolved as provided for in sub-paragraph (g) of sub-clause 20.3 or the dispute is one described in sub-clause 20.5, the dispute shall be determined by court proceedings, provided that:

- (a) nothing herein contained shall deprive the Contractor of the right to institute immediate court proceedings in respect of failure by the Employer to pay the amount of a payment certificate on its due date or to refund any amount of retention money on its due date for refund,
- (b) no ruling or decision given by the Engineer in accordance with the provisions of the Contract shall disqualify him from being called as a witness and giving evidence before the court on any matter whatsoever relevant to the dispute concerned;
- (c) the court shall have full power to open up, review and revise any ruling, decision, order, instruction, certificate or valuation of the Engineer relevant to the matter in dispute
- (d) nothing herein precludes the Employer from approaching the Courts, as a matter of first instance, with regards to any disputes it believes it has against the Contractor and/or in defence to claims made by the latter.

20.5 SPECIAL DISPUTES

Notwithstanding anything elsewhere provided in sub-clauses 20.2, 20.3 and 20.4, any dispute between the Contractor and the Employer,

- (a) not relating to a ruling, decision, order, instruction or certificate by the Engineer, or
- (b) arising after the completion of the Contract or, if a Defects Notification Period is provided, after the termination of that period,

shall be determined, without the application of the provisions of sub-clauses 20.2 and 20.3 by court proceedings which may be initiated by either Party, in which event the provisions of sub-clause 20.4 shall apply.

20.6 CONTINUING VALIDITY OF SUB-CLAUSES 20.2 TO 20.6

Sub-clauses 20.2 to 20.6 inclusive constitute a separate, divisible agreement from the rest of the Contract and shall remain valid and applicable, notwithstanding that the Works may have been completed or that the rest of the Contract may be void or voidable or may have been cancelled for any reason."
