CERTIFICATE OF INDEPENDENT BID DETERMINATION (MBD 9)

1. This municipal bidding document (MBD) must form part of all bids[1] invited.

2. Section 4(1)(b)(iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).[2] Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.

3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:

   3.1. take all reasonable steps to prevent such abuse;
   3.2. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
   3.3. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid rigging.

5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid.

[1] Includes price quotations, advertised competitive bids, limited bids and proposals.

[2] Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

SCOPE OF WORK **(JPC MBD 10)**

1. BACKGROUND

The City of Joburg Property Company (JPC) SOC Ltd regularly requires the services of contractors for the delivery of services related to the development and management of the COJ's land portfolio and in the effective operation of its own core business.

The objective is to have a readily available pool of contractors, which can be invited to submit pricing proposals for the Electrical engineering class of works from time to time once prequalified to be on the panel.

1.2 Operation of the Panel

1.2.1 Allocation for Emergency Works

1.2.1.1 The successful bidders in grades 2 to 4 EB will be allocated work for emergency works on a rotational basis and the turn around response time will be 4 hours. In the event there is no response at the end of the 4 hours, JPC will then proceed to appoint the next bidder on 2 to 4 EB. There will not be a need for quotations for emergency works as JPC has a schedule of rates that has been pre-determined schedule of rates (**Bill of Quantities**). The only time quotations will be solicited from the contractors will be for items that are not in the approved schedule of rates. The Schedule of Rates has been calculated for the three years.

1.2.1.2 Emergency repairs are repairs that are carried out to remedy any defect which puts the health, safety or security of people or third party at immediate risk or which affects the structure of building.

1.2.1.3 The process followed in allocating work is different from that of planned projects, necessitates distinction. Service providers may be required to provide emergency work that may be specialised in some instances and the next service provider in line as per the rotation plan might not necessarily respond within the four hours to accept the work. This would necessitate that such emergency work be allocated to the next service provider on the rotation list.

1.2.1.4 Contractors might fail to attend to calls made for work that they regard as "small jobs", such as replacement of globes, light switches etc. The required work will be allocated to service provider next in line in the rotation list in such a case.

1.2.2 ALLOCATION OF WORK FOR PLANNED MAINTENANCE

a. The appointment into the JPC's panel of Contractors does not guarantee that the panellist will receive actual appointment for the project that are being implemented. JPC will run a RFQ bid process within the established panel;

b. Services will be sourced on an as and when required basis from the panel of Contractors and in terms of JPC SCM Policy and guidelines;

c. Requests for quotations will be advertised on the notice board to the approved panel.

d. It is important to note that no officials from JPC will contact any Contractor for the purpose of obtaining quotes outside of the above process.

1.3 PERFORMANCE MONITORING AND REVIEW OF THE APPOINTED CONTRACTOR

1.3.1 The review and appraisal of the appointed contractor will be performed on completion of the respective project undertaken.

1.3.2 Performance of all service providers will be administered in line with the Conditions of Contract of JBCC as amended.

1.3.3 During the life span of the panel, contractors will not be reviewed based on allocation thus resulting in their graduation as a result of cumulative work allocated but the duration of the panel will be deemed as a project as opposed to individual allocation. Notwithstanding that completion certificates will be issued per project, contractors will not be graduated to a higher CIDB grade before the expiry of the panel as per the Supply Chain Operating Procedure.

1.3.4 The custodian will communicate to user departments that contractors should not be allocated work above their CIDB thresholds and as such if the contractor is appointed at level 2 EB it cannot be appointed above the threshold until the panel expires. This will be a condition of approval of the panel by the Bid Adjudication Committee and will be included in the allocation/ utilisation plan of the panel.

1. BID SPECIFICATIONS (JPC MBD 11)

Please tick each category for which bid is submitted.

Please tick each category for which bid is submitted and attach a completed copy of "OFFER FOR CONTRACTING SERVICES" FORM for each category of service for which a bid is made.

5.2.3 Where the required supporting documentation for a specific sub-criterion is not submitted, is incomplete, or does not contain the minimum information specified (such as project value, period, client details), the bidder may score lower or zero points for that sub-criterion.

5.2.4 Bidders are responsible for ensuring that all documentation is submitted in the required format at the time of bid closing. No additional or late information will be accepted for the purpose of functionality scoring after the closing date and time.
