2. Departmental and Programme Overview

Co-operative businesses play a vital role in the economic landscape, particularly in supporting local communities and fostering collective development. In the 2026/27 Enterprise Development APP/AOP, training is one of the identified activities for the support of MSMEs.

The Department of Economic Development, Tourism and Environmental Affairs (EDTEA) through the Enterprise Development sub-programme and Co-operatives Development unit is mandated to ensure the growth and sustainability of Co-operatives by implementing several developmental programmes. Therefore, the training of Co-operatives is one of the fundamental pillars/ programs that seeks to address operational efficiency, financial management, business management and governance within Co-operative movement, ultimately fostering sustainable growth and community development.

Training will empower Co-operative members with the knowledge and skills required to make informed decisions, therefore enhancing overall organizational performance. Strengthening governance and business management practices will contribute to the development of more resilient Co-operatives that are better equipped to withstand economic fluctuations and adapt to changing market conditions.

This initiative aligns with the department's objectives of promoting economic development and supporting community-driven initiatives in the Province of KwaZulu-Natal. Financial institutions and government departments are more likely to support Co-operatives that demonstrate proper governance and sound business management practices. Therefore, the training will improve opportunities for Co-operatives to access funding, mentorship and market opportunities.

The Department implements interventions that enhance institutional governance, business management capacity, market readiness, compliance, financial sustainability, and job creation within the co-operative sector.
