1 DESCRIPTION

The South African Weather Service (SAWS) seeks to appoint a reputable and suitably qualified training provider to provide Executive Artificial Intelligence (AI) and Data Analytics Training for four (4) Executive Managers.

The programme must provide senior executives with a practical understanding of Artificial Intelligence, Data Analytics with Data Governance and AI Governance to support strategic leadership, organizational transformation, informed decision-making, risk management and oversight responsibilities.

The programme must be designed specifically for executive leadership and should focus on the strategic application of AI and Data Analytics rather than technical development or programming.

2 INTRODUCTION

The South African Weather Service (SAWS) is a public entity of the Department of Forestry, Fisheries and the Environment (DFFE) and derives its mandate from the South African Weather Service Act (No. 8 of 2001 as amended). 3 BACKGROUND

Organizations across the world are increasingly adopting Artificial Intelligence and Data Science to improve decision-making, optimize operations, strengthen governance and enable innovation.
